Description:

Adrienne Willis is 45 and has been divorced for three years, abandoned by her husband for a younger woman. The trials of raising her teenage children and caring for her sick father have worn her down, but at the request of a friend and in hopes of respite, she's gone to the coastal village of Rodanthe in North Carolina to tend the local inn for the weekend. With a major storm brewing, the time away doesn't look promising...until a guest

named Paul Flanner arrives. At 54, Paul is a successful surgeon, but in the previous six months his life has unraveled into something he doesn't recognize. Estranged from his son and recently divorced, he's sold his practice and his home and has journeyed to this isolated town in hopes of closing a painful chapter in his past. Adrienne and Paul come together as the storm brews over Rodanthe, but what begins between them over the weekend will resonate throughout the rest of their lives, intertwining past and future, love and loss.

Nights In Rodanthe is the story of two people coming together and falling in love when they least expect it. Adrienne Willis is left to raise her three kids after her husband ran off with a younger woman and with a need to collect her thoughts, she goes to Rodanthe to tend to her friend's inn for the weekend unaware of what is to come. Paul Flanner was a highly successful doctor who is running from his past and trying to regain what he lost with his grown son. A trip to Rodanthe for Paul would mean a start to a new beginning with his son but at the same time, a certain woman will come into his life when it's most needed. One weekend is all it takes for Adrienne and Paul, to fall deeply in love but with Paul set to fly down to South America for a year to be with his son, Paul is willing to give that up to be with Adrienne but comes to realization that he needs to be with his son more. With a sad goodbye and with it now being fifteen years since that weekend, Adrienne finally tells her daughter, Amanda what happened that weekend. As Amanda is dealing with a heartbreaking loss of her husband and having to raise two young boys by herself, the story of her mother and Paul will make her want to do more for her boys and realize what her mother went through so many years ago. We are left with Adrienne reflecting on what happened that weekend and what happened with her and Paul afterward, we realize that all it takes is one look from someone to find your one true soul mate. I have to be honest here and say that, this isn't my first time reading this book but it will be the first time reviewing it, yes people, it's that good of a book for me to have read and reread this book multiple times just to read Adrienne and Paul's story! Just reading how their lives collided on that beach in Rodanthe for the weekend and how they fell in love and what happened after, will have you crying a bit in the end of the book for them. When the movie came out, it was exactly like I thought it would be and it does make you think that love is possible even when you least expect it! Thank You to Nicholas Sparks for writing a story that you can reread over and over and not get bored with it! This book came from my own personal Library!
